A U R A

Aura

There are four ways to connect Aura to your Wi-Fi router for the first time setup.
The three most common are shown below. For more options consult the owner's manual online at www.harmankardon.com

Setup by APP

1. Download the Harman Kardon Remote app to help you easily join your Wi-Fi network.

2. Find "+" in the dashboard, then press it for a step by step guide.

Available on the **App Store**

ANDROID APP ON **Google** play
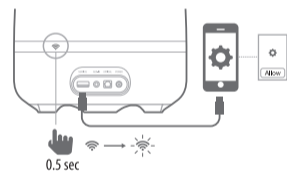

For iOS user

Wi-Fi Sharing with Cable

1. Connect your iPhone, iPad or iPod touch to the speaker using the USB to 30-pin or USB to Lightning cable provided with your iPhone, iPad or iPod touch.

3. Press the Wi-Fi button on the Harman Kardon Aura for less than a second. A pop-up window will be displayed on your iPad, iPhone or iPod Touch with a message Share Wi-Fi Settings?

0.5 sec

2. Ensure your iPhone, iPad or iPod touch is connected to your Wi-Fi network.

4. Press Allow.

Allow

5. The iPhone, iPad or iPod Touch will then share Wi-Fi settings with the Harman Kardon Aura and it will be connected to your Wi-Fi network. This takes at least 40 seconds.
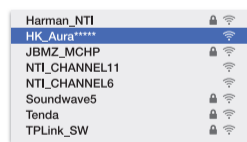

Once the HK Aura is connected to the network, the Wi-Fi LED will light constant white and a sound prompt will be heard.
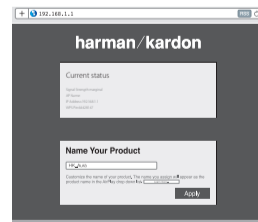

Android or Mac/PC setup

1. Put the Harman Kardon Aura into Ad-hoc mode by touching the Wi-Fi button for more than 5 seconds (ensure there are no USB devices plugged into the USB port). The Wi-Fi LED will begin to flash.
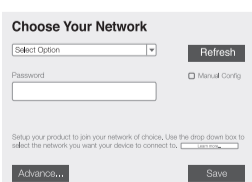

> 5s

2. Go to the Wi-Fi Settings page on your Mac, PC or Phone and connect to the network with the name HK_Aura*****. This may take around 40 seconds depending on your device.

Harman_NTI	
HK_Aura*****	
JBMZ_MCHP	
NTI_CHANNEL11	
NTI_CHANNEL6	
Soundwave5	
Tenda	
TPLink_SW	

3. Open the web browser on your computer or phone/tablet, and in the address bar, type "192.168.1.1" and press enter. You should see the HK Aura setup page.

Current status

Name Your Product

4. Choose the Wi-Fi network you want to join, enter the password and click "Save".

Choose Your Network

Select Option   Refresh
Password: ☐ Manual Config

Setup your product to join your network of choice. Use the drop down box to select the network you want your device to connect to.

Advance...   Save

5. The Harman Kardon Aura will then attempt to connect to your Wi-Fi network. This may take up to one minute depending on your Wi-Fi router. If the connection is successful, the Wi-Fi LED will turn solid white and the connection successful tone can be heard. If the connection is unsuccessful or your password incorrect, the Wi-Fi LED will flash quickly. To try again, start from step 1.

NOTE: To restore the factory default settings, long press Source and Power button in Operational mode.
